Manoj S Selvam

Marine Engineer | Technical Purchaser | CIPS
Dubai, Dubai, United Arab Emirates

Summary

Marine Procurement Engineer with solid experience in sourcing and supplying technical marine equipment and spare parts for vessels and shipyard operations. Skilled in handling end-to-end procurement processes including RFQs, technical evaluation, vendor negotiation, and logistics coordination. Experienced in working closely with technical teams, superintendents, and vessel crew to ensure timely availability of critical spares such as pumps, valves, engine components, and auxiliary machinery. Strong understanding of marine standards, specifications, and urgent operational requirements. Focused on cost optimization, supplier development, and efficient procurement strategies without compromising on quality or delivery timelines. Proven ability to manage global suppliers, handle time-sensitive requirements, and support smooth vessel operations. A reliable and detail-oriented professional committed to operational excellence and continuous improvement in marine procurement.

Experience

Pegasus Marine Services LLC

Procurement Engineer

February 2023 - Present (3 years 4 months)

Dubai, United Arab Emirates

* Managed end-to-end procurement of marine spare parts, machinery, and technical services for vessels and shipyard operations

*Sourced and evaluated global suppliers (OEMs and authorized vendors) to ensure quality, reliability, and cost efficiency

*Prepared RFQs, analyzed quotations, and negotiated pricing, delivery terms, and contracts

*Coordinated closely with vessel crew, technical superintendents, and logistics teams for timely delivery of critical spares

*Verified technical specifications and ensured compliance with class and marine standards

*Handled urgent and AOG (vessel critical) requirements under tight timelines

*Maintained procurement records, documentation, and ERP system updates

*Monitored inventory levels and optimized stock availability to avoid operational delays

*Developed strong vendor relationships and ensured consistent performance and support

*Managed shipping, customs clearance, and delivery follow-ups across international locations
