Muhammed Ramees K

Marine Procurement Officer | Procurement Engineer | Mechanical Engineer | ASNT NDT Level II Certified
Abu Dhabi Emirate, United Arab Emirates

Summary

A highly skilled Procurement Officer with expertise in managing end-to-end supply chain and technical procurement for a diverse fleet that includes Multipurpose cargo vessels, landing crafts, tugboats, crew boats, and anchor handling tug supply vessels (AHTs). Experienced in sourcing, evaluating, and procuring critical spares, consumables, machinery parts, and marine equipment in compliance with IMO, classification society, and company standards.

Key Expertise include:

- Coordinating with vessel superintendents, chief engineers, and technical teams to ensure timely availability of essential spares and equipment.
- Managing vendor negotiations, supplier evaluation, and cost optimization while maintaining quality and operational reliability.
- Preparing RFQs, PRs, and POs for specialized marine items such as deck/engine machinery, safety equipment, navigation aids, and hydraulic systems.
- Overseeing logistics, customs clearance, and delivery to ports and shipyards worldwide.
- Supporting dry-docking, emergency repairs, and planned maintenance projects with efficient procurement strategies.
- Ensuring adherence to budgetary controls, HSE compliance, and industry best practices in marine procurement.

I am always open to new opportunities, collaborations, and discussions related to marine procurement, supply chain efficiency, and vendor management. Feel free to connect and reach out!##

Experience

KHALID FARAJ SHIPPING
Marine Procurement Engineer

March 2024 - Present (2 years 3 months)

Abu Dhabi Emirate, United Arab Emirates

Vessels: Multipurpose cargo vessels, Landing crafts, Tug boats, Crew boats, AHTs, Barges
